Applications

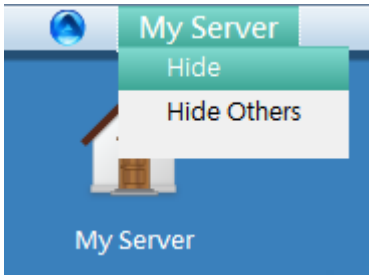
Launch an Application

To launch an application you can:

- Click the icons on the dock.
- Double click the desktop shortcuts.

Taskbar Menu

When an application is launched or is clicked on, the Taskbar Menu will be displayed on the Menu Bar.



Hide/Show an Application

Click the Taskbar Menu, select **Hide** to hide the current application, **Hide Others** to hide all the other applications currently running. To show a hidden application:

- Click the application icon on the dock.
