

Password

To change the password of the currently logged in user, enter the old password, enter the new password twice and then click **Apply** to save the changes.

A screenshot of a web application dialog box titled "Password". The dialog box has a standard window header with minimize, maximize, and close buttons. Inside the dialog, there are four input fields: "Username" (containing "admin"), "Old Password", "Password", and "Confirm". Below these fields is a button labeled "Apply".
